

1 think 80 years testing is more than sufficient, and I
2 would remind the Panel that we're supposed to be
3 looking at reasonable assurances of safety and
4 efficacy and we're also supposed to be looking at
5 least burdensome, what is the least burdensome way to
6 satisfy ourselves that this product is safe and
7 effective. And you have a product that has 17 years
8 of experience in Europe. We have seen some failures,
9 but, as Dr. Besser mentioned, none of them seem to
10 have been related to the devices. I just don't
11 understand why you would want to add this extra burden
12 to the company.

13 CHAIRPERSON YASZEMSKI: Thank you, Ms.
14 Maher. Ms. Luckner? Thank you. Let's vote. Dr.
15 Diaz? The vote is for a motion to require post-
16 approval study both for wear data to 50 million cycles
17 and to study coupled motion, flexion-extension with
18 lateral bending.

19 DR. DIAZ: I disagree.

20 CHAIRPERSON YASZEMSKI: Thank you, Dr.
21 Diaz. Dr. Mabrey?

22 DR. MABREY: On this motion I will

1 disagree.

2 CHAIRPERSON YASZEMSKI: Thank you, Dr.
3 Mabrey. Dr. Finnegan?

4 DR. FINNEGAN: I don't think I have a
5 vote, but I agree.

6 CHAIRPERSON YASZEMSKI: Thank you. Dr.
7 Kim?

8 DR. KIM: I disagree.

9 CHAIRPERSON YASZEMSKI: Thank you. Dr.
10 Naidu?

11 DR. NAIDU: I disagree.

12 CHAIRPERSON YASZEMSKI: Thank you. Dr.
13 Kirkpatrick?

14 DR. KIRKPATRICK: I agree.

15 CHAIRPERSON YASZEMSKI: Thank you. Dr.
16 Blumenstein?

17 DR. BLUMENSTEIN: Disagree.

18 CHAIRPERSON YASZEMSKI: Thank you. Dr.
19 Besser?

20 DR. BESSER: Disagree.

21 CHAIRPERSON YASZEMSKI: Thank you. This
22 motion does not pass. I will ask now if anybody would

1 like to offer additional motions for conditions to be
2 included. Dr. Besser?

3 DR. BESSER: I would like to move that the
4 post-marketing study be done looking at the multiple
5 modes of wear in the prosthesis, I think, 10 million
6 cycles with both flexion-extension and lateral bending
7 at the same time.

8 CHAIRPERSON YASZEMSKI: Thank you, Dr.
9 Besser. Do I have a second for this motion?

10 DR. KIRKPATRICK: Second.

11 CHAIRPERSON YASZEMSKI: Thank you, Dr.
12 Kirkpatrick. Discussion, Dr. Diaz?

13 DR. DIAZ: Well, I think really that's the
14 part that we haven't seen that is critical to the
15 evaluation. We have seen pretty much all other
16 mechanical ways of evaluating this particular device.
17 I think that would compliment it well.

18 CHAIRPERSON YASZEMSKI: Thank you, Dr.
19 Diaz. Dr. Mabrey?

20 DR. MABREY: No comment.

21 CHAIRPERSON YASZEMSKI: No comment? Dr.
22 Finnegan?

1 DR. FINNEGAN: No comment.

2 CHAIRPERSON YASZEMSKI: Thank you. Dr.

3 Kim?

4 DR. KIM: No comment.

5 CHAIRPERSON YASZEMSKI: Thank you. Dr.

6 Naidu?

7 DR. NAIDU: I think that's a reasonable

8 addition.

9 CHAIRPERSON YASZEMSKI: Thank you. Dr.

10 Kirkpatrick?

11 DR. KIRKPATRICK: No further comment.

12 CHAIRPERSON YASZEMSKI: Thank you. Dr.

13 Blumenstein?

14 DR. BLUMENSTEIN: No comment.

15 CHAIRPERSON YASZEMSKI: Thank you. Dr.

16 Besser, you made the motion. Any additional comments?

17 DR. BESSER: No.

18 CHAIRPERSON YASZEMSKI: Thank you. Ms.

19 Maher?

20 MS. MAHER: I'm okay.

21 CHAIRPERSON YASZEMSKI: Thank you. Ms.

22 Luckner?

1 MS. LUCKNER: I'm okay.

2 CHAIRPERSON YASZEMSKI: Okay. We have a
3 motion to have a post-approval study of flexion-
4 extension in-vitro coupled with lateral bending to 10
5 million cycles. We'll vote on that motion. Dr. Diaz?

6 DR. DIAZ: I agree.

7 CHAIRPERSON YASZEMSKI: Dr. Mabrey?

8 DR. MABREY: I agree.

9 CHAIRPERSON YASZEMSKI: Dr. Finnegan?

10 DR. FINNEGAN: I agree.

11 CHAIRPERSON YASZEMSKI: Dr. Kim?

12 DR. KIM: I agree.

13 CHAIRPERSON YASZEMSKI: Dr. Naidu?

14 DR. NAIDU: I agree.

15 CHAIRPERSON YASZEMSKI: Dr. Kirkpatrick?

16 DR. KIRKPATRICK: Agree.

17 CHAIRPERSON YASZEMSKI: Dr. Blumenstein?

18 DR. BLUMENSTEIN: Agree.

19 CHAIRPERSON YASZEMSKI: Dr. Besser?

20 DR. BESSER: Agree.

21 CHAIRPERSON YASZEMSKI: All right. This
22 motion passes. We now have three conditions to the

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 motion for approval with conditions. Do I have any
2 motions for additional conditions? Dr. Finnegan?

3 DR. FINNEGAN: Yes, I would think that
4 mandatory training of surgeons would be an additional
5 condition.

6 CHAIRPERSON YASZEMSKI: Okay. Do I have
7 a second for this motion?

8 DR. DIAZ: Second.

9 CHAIRPERSON YASZEMSKI: Dr. Diaz.
10 Discussion, Dr. Diaz?

11 DR. DIAZ: I think probably of all the
12 things we do in spine surgery, this is going to be the
13 one that will require the most supervision, monitoring
14 and critical analysis of the ability of the individual
15 to do this procedure. Unfortunately, many of these
16 surgical interventions in the spine have been released
17 relatively freely and this particular device, I think,
18 has some very peculiar functional components that will
19 require a very detailed evaluation not only of the
20 implantation and its technique, but the surgeon as
21 well. So I think it is critical to have that as a
22 requirement.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Thank you, Dr.
2 Diaz. Dr. Mabrey?

3 DR. MABREY: No comments.

4 CHAIRPERSON YASZEMSKI: Dr. Finnegan?

5 DR. FINNEGAN: No comments.

6 CHAIRPERSON YASZEMSKI: Dr. Kim?

7 DR. KIM: No comment.

8 CHAIRPERSON YASZEMSKI: Dr. Naidu?

9 DR. NAIDU: No comment.

10 CHAIRPERSON YASZEMSKI: Dr. Kirkpatrick?

11 DR. KIRKPATRICK: My only comment would be
12 that it would be consistent with other products, which
13 may have had the same kind of restriction.

14 CHAIRPERSON YASZEMSKI: Thank you. And
15 when we go around, I'm going to ask Dr. Witten if
16 she'll comment on the history of this type of
17 requirement at FDA. Dr. Blumenstein?

18 DR. BLUMENSTEIN: No comment.

19 CHAIRPERSON YASZEMSKI: Dr. Besser?

20 DR. BESSER: No comment.

21 CHAIRPERSON YASZEMSKI: Ms. Maher?

22 MS. MAHER: No comment.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Ms. Luckner?

2 MS. LUCKNER: I'm very pleased to see this
3 added as a condition. It has been a concern of mine
4 as I have heard this whole presentation that the
5 results are directly related to the time and the
6 experience, and I commend the company for the
7 thoughtfulness they have taken in planning this out
8 from the get-go before we even brought it up. They
9 have made provision for it, so I think that's
10 remarkable.

11 CHAIRPERSON YASZEMSKI: Thanks so much.
12 Dr. Witten, may I ask you, what is the history of this
13 type of requirement at FDA?

14 DR. WITTEN: Well, we can require that the
15 sponsor have training available, a training program
16 available, and I think we can actually require that
17 they distribute to people who have had training, okay,
18 and I think we have done both.

19 CHAIRPERSON YASZEMSKI: Okay.

20 DR. WITTEN: Is the answer.

21 CHAIRPERSON YASZEMSKI: Thank you.

22 DR. WITTEN: Or neither and neither.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Thank you. We'll
2 vote on this. This is to require that training be
3 available for surgeons before they do this procedure
4 and we'll vote for this then. Further commentary, Dr.
5 Kirkpatrick?

6 DR. KIRKPATRICK: My understanding was the
7 motion was to require training prior to distribution
8 of the device to that individual. Is that the motion?

9 CHAIRPERSON YASZEMSKI: Okay. Is that
10 the --

11 DR. KIRKPATRICK: Then would it imply,
12 based upon what we just heard from Dr. Witten, that
13 there would be certification of the individual or a
14 graduate certificate from the training program? Is
15 that what we're talking about?

16 CHAIRPERSON YASZEMSKI: May I comment? If
17 I may comment, I think that training centers may give
18 a certificate or a statement that a person has
19 completed the training, but they may not certify the
20 person as having any level of expertise in the
21 training. They can just say what their course outline
22 was and that the person went through that outline.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 DR. KIRKPATRICK: As I understand your
2 motion, it is to basically have somebody trained by
3 the company to do it, trained by the company, not the
4 company itself, but a training center approved by the
5 company to do it.

6 DR. DIAZ: I don't know that the company
7 really is the group that needs to issue that.

8 DR. KIRKPATRICK: Let me just say by
9 approved training agency.

10 DR. DIAZ: Yes, I think that would be a
11 better statement. What do you think?

12 DR. WITTEN: Well, I just want to clarify
13 something, and then I see that Ms. Maher may have some
14 other clarification to my clarification, but our only
15 requirement would be on what the sponsor does. We
16 don't have any requirements on, you know, what a
17 hospital would allow a surgeon to do based on, you
18 know, certain training that somebody else provided.
19 So it's through the sponsor either providing something
20 or ensuring that it's available.

21 CHAIRPERSON YASZEMSKI: Thank you.

22 DR. WITTEN: And it's not, you know,

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 having -- not engaging in having some other training
2 occur.

3 CHAIRPERSON YASZEMSKI: Thank you, Dr.
4 Witten. Ms. Maher?

5 MS. MAHER: Yes, I think I would like Mr.
6 Christianson to comment on this and what they are
7 planning, but I also would like to comment myself that
8 I think we have to be very careful not to tell the
9 industry that they have to certify that a doctor meets
10 certain skills.

11 CHAIRPERSON YASZEMSKI: No, no, that's not
12 what's being said at all.

13 MS. MAHER: Right. What I would really
14 like to see is that we say we want training to be done
15 and we allow the FDA and the sponsor to work out what
16 the most appropriate form of training is and for how
17 many years they are going to have to train, because in
18 10 or 15 years this could be -- hopefully, will be
19 state of the art and nobody is going to want to have
20 to go through an additional training course to do it.
21 But, Bill, do you want to comment on the plans that
22 you all have?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Yes, I would ask
2 Mr. Christianson. Would you care to make a comment?

3 MR. CHRISTIANSON: Bill Christianson.
4 Yes, thank you for calling me up. One of the
5 conditions that you mentioned, Dr. Kirkpatrick, is
6 that an individual has to be trained before they can
7 be sold to you. You need to understand that as an
8 industry, we sell to a hospital and so we're very
9 happy to have a very robust training program. We're
10 absolutely committed to having the highest quality
11 training program and we want every single surgeon who
12 is going to use this device to go through the program.

13 But honestly, that is really managed at
14 the local level by hospital credentialing committees
15 and we would be very happy to have those committees
16 adopt a statement saying that you must go through the
17 training program or you must have an experienced
18 surgeon at your side while you're doing your cases,
19 but we can't control an individual who buys, because
20 we sell to an individual hospital. So we're very
21 happy to have a condition that we have a robust
22 training program and it has already been said, we

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 can't certify physicians and I don't think anybody in
2 the Panel wants us to.

3 DR. KIRKPATRICK: You have pointed out
4 exactly my concern about communication here. We need
5 to make sure that the condition that's being sought
6 can be done.

7 MR. CHRISTIANSON: We can have a robust
8 training program.

9 DR. KIRKPATRICK: In other words, if UAB
10 Hospital calls him and says we want the Charite Disc
11 even though none of our surgeons have been trained on
12 it, he doesn't have any authority or power to stop
13 that disc from being sold to the hospital is what he
14 just said.

15 MR. CHRISTIANSON: Well, actually, I can
16 stop that, but once you have been trained there, I
17 can't stop it being sold.

18 DR. KIRKPATRICK: Okay.

19 MR. CHRISTIANSON: And then your
20 colleague.

21 DR. KIRKPATRICK: That's what I'm trying
22 to clarify, because we got that you will ensure

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 training. Okay. You can ensure training, but only if
2 people go there. Is there a way that FDA can require
3 the distribution of the product only to people that
4 have demonstrated to the distributors, I guess, or to
5 somebody that they have had the training?

6 DR. WITTEN: Well, I don't really have
7 anything to say beyond what I already said, which is
8 we have done it both ways, you know, both having, you
9 know, anybody who receives it to use it be trained and
10 also requiring that training be available. And I
11 really don't know what the logistics have been in the
12 other circumstances.

13 CHAIRPERSON YASZEMSKI: Okay. Thank you,
14 Dr. Witten. So we have had a discussion on it and we
15 can see that, I think, Ms. Maher summed it up, that if
16 we vote for this, the details will be worked out
17 between the FDA and the company to the satisfaction of
18 both, and we're just voting to make that
19 recommendation to FDA that they enter into that
20 discussion and see that it's accomplished to their
21 satisfaction. So with that, we're going to vote. Dr.
22 Diaz?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 DR. DIAZ: I agree.

2 DR. KIRKPATRICK: Can we hear the motion
3 again, because what you said is different than what I
4 understood he moved.

5 CHAIRPERSON YASZEMSKI: Okay. The motion
6 is that training will be made available and that the
7 FDA will insist that the company make training
8 available. However, at the point of requiring (A)
9 either certification of surgeons as being adept at the
10 technique, we have to stop, because neither the FDA
11 nor the company can influence medical practice, and
12 that will have to be left to the discretion of the
13 State Licensing Boards and the Hospital Credentials
14 Committees. That is the nature of the motion.

15 UNIDENTIFIED SPEAKER: That's your motion.

16 DR. DIAZ: I agree.

17 CHAIRPERSON YASZEMSKI: Agree. Dr.
18 Mabrey?

19 DR. MABREY: I agree.

20 CHAIRPERSON YASZEMSKI: Dr. Finnegan?

21 DR. FINNEGAN: Agree.

22 CHAIRPERSON YASZEMSKI: Dr. Kim?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 DR. KIM: I agree.

2 CHAIRPERSON YASZEMSKI: Dr. Naidu?

3 DR. NAIDU: I agree.

4 CHAIRPERSON YASZEMSKI: Dr. Kirkpatrick?

5 DR. KIRKPATRICK: I agree.

6 CHAIRPERSON YASZEMSKI: Dr. Blumenstein?

7 DR. BLUMENSTEIN: Agree.

8 CHAIRPERSON YASZEMSKI: Dr. Besser?

9 DR. BESSER: I agree.

10 CHAIRPERSON YASZEMSKI: Okay. This motion
11 passes. We now have four conditions to the motion for
12 approval with conditions. Do we have other motions
13 for additional conditions? Dr. Kirkpatrick?

14 DR. KIRKPATRICK: Here comes Simon again.
15 Following up with a pre-approval study on existing
16 data of a radiographic evaluation of the adjacent
17 segment degeneration at pre-op and 24 months. There
18 have been literature standards set for looking at
19 adjacent segment degeneration as far as disc height,
20 subluxation, facet changes and that sort of thing.

21 As I understand it, those are all on plain
22 radiographs. You already have those at 24 months of

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 the index segment. I assume that means you have them
2 of additional segments. And so, as such, that would
3 be a pre-approval condition and I will stop with one,
4 because when I go to two, it tends not to work.

5 CHAIRPERSON YASZEMSKI: Okay. That's
6 fine. Do we have a second for this motion? I see no
7 second, so this motion does not carry. Do we have
8 additional conditions?

9 MS. MAHER: Can I make a comment?

10 CHAIRPERSON YASZEMSKI: Yes.

11 MS. MAHER: Can I suggest that somebody
12 might move that the FDA and the sponsor go through all
13 of these issues and discuss them and come up with ways
14 to resolve them, as needed to be resolved, with using
15 the FDA's scientific expertise?

16 CHAIRPERSON YASZEMSKI: I think we can
17 suggest that. We also do though have to have the
18 ability for everybody to make motions until they are
19 exhausted. So noted. So noted.

20 UNIDENTIFIED SPEAKER: The motions or the
21 people?

22 DR. KIRKPATRICK: Since you can't make a

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 motion or vote, let me propose that as a motion, that
2 the FDA and the sponsor consider the remaining issues
3 on what was provided to you by me with the exception
4 of the ones that we have already voted on, and the
5 exceptions of number 5, which I deleted, number 7,
6 which seems to be answered already and number 10,
7 which has been answered already. So that would
8 actually cut down the number of things you have to
9 look at.

10 CHAIRPERSON YASZEMSKI: So how about
11 let's, if this is going to be your motion, say the
12 ones that are included? Number one?

13 DR. KIRKPATRICK: Okay. Number 1 is
14 included. Number 2 is included. Number 3 we have
15 already voted down part of it and voted in the other
16 part.

17 CHAIRPERSON YASZEMSKI: Okay.

18 DR. KIRKPATRICK: So 3 is excluded from
19 this motion. Number 4 is included. Number 5 is
20 excluded. Number 6 is included. Number 7 is
21 excluded. Number 8 is included. Number 9 is
22 included. Number 10 is excluded. Number 11 is

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 included. Number 12 has been voted down, so it is
2 excluded, and number 13 has already been addressed.

3 CHAIRPERSON YASZEMSKI: Okay.

4 DR. KIRKPATRICK: So it's excluded.

5 CHAIRPERSON YASZEMSKI: So if I can repeat
6 the motion, Dr. Kirkpatrick's motion for a condition
7 is that on the conditions for approval that he
8 circulated after his lead review, that the sponsor and
9 FDA together consider numbers 1, 2, 4, 6, 8, 9 and 11
10 and arrive at resolution of those to the satisfaction
11 of both. Is that your motion?

12 DR. KIRKPATRICK: That would be my motion.

13 CHAIRPERSON YASZEMSKI: Do I have a
14 second?

15 DR. FINNEGAN: You have a second or a
16 question? Can you not add 12 into this? That might
17 solve your dilemma. I think that's what she was
18 trying to do, was put 12 into this.

19 DR. KIRKPATRICK: 12 didn't get a second.

20 DR. FINNEGAN: Right, but if you put --

21 DR. KIRKPATRICK: So that's defeated in my
22 mind, so it doesn't. I mean, they can consider

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 everything we say.

2 DR. FINNEGAN: Okay. All right.

3 CHAIRPERSON YASZEMSKI: Okay. Do we have
4 a second?

5 DR. FINNEGAN: Yes.

6 CHAIRPERSON YASZEMSKI: Yes, a second.

7 Any further discussion? We'll vote. Dr. Diaz?

8 DR. DIAZ: I agree.

9 CHAIRPERSON YASZEMSKI: Dr. Mabrey?

10 DR. MABREY: I agree.

11 CHAIRPERSON YASZEMSKI: Dr. Finnegan?

12 DR. FINNEGAN: I agree.

13 CHAIRPERSON YASZEMSKI: Dr. Kim?

14 DR. KIM: I agree.

15 CHAIRPERSON YASZEMSKI: Dr. Naidu?

16 DR. NAIDU: I agree.

17 CHAIRPERSON YASZEMSKI: Dr. Kirkpatrick?

18 DR. KIRKPATRICK: I agree and I'm very
19 grateful for our colleague's suggestion.

20 CHAIRPERSON YASZEMSKI: Dr. Blumenstein.

21 DR. BLUMENSTEIN: I agree.

22 CHAIRPERSON YASZEMSKI: Dr. Besser?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 DR. BESSER: Agree.

2 CHAIRPERSON YASZEMSKI: This motion
3 passes.

4 MS. MAHER: Can I make one more comment on
5 the motion even though it has passed, that the motion
6 was not that they have to take all of these.

7 CHAIRPERSON YASZEMSKI: No.

8 MS. MAHER: But they are using their
9 scientific rationale to determine.

10 DR. KIRKPATRICK: Exactly.

11 CHAIRPERSON YASZEMSKI: That they together
12 mutually agree that these have been addressed, not
13 that they take them all. We now have a motion for
14 approval with conditions that has five conditions. Do
15 we have any other conditions? Dr. Finnegan?

16 DR. FINNEGAN: Well, actually, Dr. Kim, go
17 ahead.

18 CHAIRPERSON YASZEMSKI: Dr. Kim?

19 DR. KIM: Can I revisit the adjacent
20 segment problem, because in thinking about it some
21 more, I see no reason why we can't look at that with
22 the continued assessment of the IDE and the continued

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 access patients. It's all part of the radiographic
2 study. They looked at flexion-extension, but they
3 could easily look at the adjacent segments.

4 CHAIRPERSON YASZEMSKI: And I think that
5 I would submit that that's included. The FDA has
6 heard that message and they can discuss whatever they
7 want to discuss.

8 DR. KIM: Okay.

9 CHAIRPERSON YASZEMSKI: And that it will
10 be accomplished without further additions to these
11 conditions. Thank you. Additional conditions?

12 DR. FINNEGAN: You know, I can't leave
13 without giving Dr. Witten at least a little bit of a
14 heart attack. Because this is the first of its kind
15 and because we are happier with efficacy than we are
16 with safety, and that we think that safety has a
17 longer term playtime, if you like, is it possible for
18 us to ask that the company come up with a direct phone
19 line for people to report adverse events for this
20 particular device? I suspect this has never been done
21 before, but for this --

22 CHAIRPERSON YASZEMSKI: If I could, may I

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 ask for commentary?

2 DR. FINNEGAN: Yes.

3 CHAIRPERSON YASZEMSKI: Both if Dr. Witten
4 has a comment and I want to ask Dr. Christianson if he
5 would comment or a member of his staff.

6 DR. WITTEN: Yes, actually I would suggest
7 asking Dr. Christianson.

8 CHAIRPERSON YASZEMSKI: Mr. Christianson?

9 DR. WITTEN: To describe whatever their
10 current mechanism would be first.

11 DR. FINNEGAN: Okay.

12 MR. CHRISTIANSON: First of all, thank you
13 for promoting me to doctor. We already include in the
14 package insert for our product an 800 number, so we
15 have already got a mechanism for primarily physicians
16 and hospital staff to call, and it sounds to me like
17 one of our conditions of approval is some kind of
18 tear-away card to give to the patients. We will be
19 happy to put our 800 number on that, too, so that's
20 very readily accomplished.

21 DR. MABREY: That could be on the
22 registration card or whatever you pass out.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Dr. Blumenstein?

2 DR. BLUMENSTEIN: Did you just say to put
3 it on the card that identified the device given to the
4 patient?

5 DR. MABREY: No, I would just include that
6 on the identification card that carries the lot
7 number.

8 CHAIRPERSON YASZEMSKI: Yes.

9 DR. MABREY: And if the patient ever has
10 a question about it, then they call your 800 number
11 and there you go.

12 DR. BLUMENSTEIN: Okay. I was going to
13 say that maybe on the back of that card you could have
14 a signed -- a place for the surgeon to sign that they
15 had undergone the training.

16 CHAIRPERSON YASZEMSKI: I'm just
17 suggesting that we let FDA and the sponsor work that
18 out.

19 DR. BLUMENSTEIN: No, the FDA doesn't
20 have to --

21 UNIDENTIFIED SPEAKER: That wasn't a
22 motion, was it?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: No, that was not
2 a motion. Do we have additional motions for
3 conditions? Any? If not, any additional discussion?
4 And if we don't, we're going to vote. Okay. We have
5 a motion for approval with conditions. There are five
6 conditions. A vote yes will be a vote for approval
7 with all these five conditions needing to be
8 accomplished. A vote no will be a vote for non-
9 approval under these terms and if that happens to
10 pass, we would need to get an alternate motion.

11 But here is the motion, approval with
12 conditions. The first condition, that all currently
13 enrolled patients in the continuous access group reach
14 two years. The second, that follow-up occur and this
15 is going to be in the form of a card that the patient
16 would have with the identification number of the
17 device, lot number and doctor, etcetera, as we have
18 discussed. The third would be to study the motion of
19 flexion and extension coupled to lateral bending for
20 10 million cycles and could be done after approval.
21 The fourth would be training for surgeons, and the
22 fifth would be the conditions circled on Dr.

NEAL R. GROSS

WASHINGTON, D.C. 20005-3701

1 Kirkpatrick's presentation sheet, numbers 1, 2, 4, 6,
2 8, 9 and 11.

3 I will ask for votes. Dr. Diaz?

4 DR. DIAZ: I agree.

5 CHAIRPERSON YASZEMSKI: Dr. Mabrey?

6 DR. MABREY: I agree.

7 CHAIRPERSON YASZEMSKI: Dr. Finnegan?

8 DR. FINNEGAN: I agree.

9 CHAIRPERSON YASZEMSKI: Dr. Kim?

10 DR. KIM: I agree.

11 CHAIRPERSON YASZEMSKI: Dr. Naidu?

12 DR. NAIDU: I agree.

13 CHAIRPERSON YASZEMSKI: Dr. Kirkpatrick?

14 DR. KIRKPATRICK: Yes.

15 CHAIRPERSON YASZEMSKI: Dr. Blumenstein?

16 DR. BLUMENSTEIN: Agree.

17 CHAIRPERSON YASZEMSKI: Dr. Besser?

18 DR. BESSER: Agree.

19 CHAIRPERSON YASZEMSKI: Thank you. This
20 motion for approval with conditions passes.

21 UNIDENTIFIED SPEAKER: Are you going to go
22 around and ask everyone the reason for their vote?

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: No, we're not
2 quite done yet, folks. We're not quite done yet. I
3 would like to go around, as a last thing, and go
4 around the table and ask everybody to make any
5 comments about the reasons for their vote. It was
6 unanimous and we probably covered all these, but the
7 FDA uses the information that we give them and they
8 are very interested in the reasons why people voted.
9 So you can be as brief as you want, but just mention
10 anything that may not have been mentioned yet. Dr.
11 Diaz?

12 DR. DIAZ: I voted the way I did, because
13 I believe the company provided us with sufficient data
14 to satisfy me that the safety and the effectiveness
15 required by the FDA were, indeed, fulfilled and the
16 recommendations for subsequent follow-up that were
17 decided in the motion include any concerns that I may
18 have had.

19 CHAIRPERSON YASZEMSKI: Thank you, Dr.
20 Diaz. Dr. Mabrey?

21 DR. MABREY: Yes. First of all, I felt
22 that the company went far and above what it had to do

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 to prove that this was a safe and effective device,
2 number one. Number two, I would like to comment that
3 I have never seen as detailed a rebuttal with 469
4 slides as I had as a high school debater. So I think
5 this demonstrates that the company is thoroughly
6 prepared. They have thoroughly researched it. They
7 are very sincere about bringing this device safety to
8 market, and I congratulate them on an excellent
9 presentation.

10 CHAIRPERSON YASZEMSKI: Thank you, Dr.
11 Mabrey. Dr. Finnegan?

12 DR. FINNEGAN: Yes, I concur. This was a
13 brave new step and I agree. I think that I have less
14 concerns about efficacy than I do about safety, and I
15 hope that they will be diligent in guarding the
16 safety, so that we don't have problems.

17 CHAIRPERSON YASZEMSKI: Thank you, Dr.
18 Finnegan. Dr. Kim?

19 DR. KIM: This device represents a
20 significant innovation in our strategy to treat a very
21 challenging clinical problem, namely discogenic lower
22 back pain. The sponsor has done a thorough job in

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 obtaining both preclinical and randomized control
2 clinical trials. I think we all appreciate that a key
3 question of implant longevity cannot be answered.
4 Luckily, we do have some data from the European
5 experience that helps us feel more comfortable with
6 the fact that this is an efficacious and safe
7 procedure, comparable to what exists today, namely the
8 Anterior Interbody Fusion using the BAK cage.

9 CHAIRPERSON YASZEMSKI: Thanks, Dr. Kim.

10 DR. KIM: Given --

11 CHAIRPERSON YASZEMSKI: I'm sorry, Dr.
12 Kim. Go ahead.

13 DR. KIM: Given that, that's the reason
14 why I voted the way I did.

15 CHAIRPERSON YASZEMSKI: Thank you, Dr.
16 Kim. Dr. Naidu?

17 DR. NAIDU: I voted to approve mainly
18 because I think the sponsor has done an excellent job.
19 They have presented a very vigorous PMA with excellent
20 basic science and clinical follow-up. They have gone
21 beyond what is required, I think, in showing the
22 efficacy of the device, and that's why I approved it.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Thanks, Dr. Naidu.
2 Dr. Kirkpatrick?

3 DR. KIRKPATRICK: I agree with the sponsor
4 that we don't know all the issues related to the cause
5 of back pain, and this is an empirical measure to try
6 and solve that problem. I agree that it is reasonably
7 safe and efficacious within the limits of what was
8 studied, and I believe that the motion, as approved,
9 was a reasonable compromise of the need for long-term
10 follow-up for both the safety and effectiveness
11 measure, as well as the need to put innovation on the
12 market.

13 CHAIRPERSON YASZEMSKI: Thanks very much,
14 Dr. Kirkpatrick, and thank you for your primary review
15 of this application. Dr. Blumenstein?

16 DR. BLUMENSTEIN: Yes. I think the
17 company did a better than average clinical trial and
18 the canonical analysis was adequate to show non-
19 inferiority. The sensitivity analyses gives me
20 confidence that the primary analyses are valid, and
21 the conditions for long-term follow-up satisfy me as
22 to the concerns I have about safety.

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 CHAIRPERSON YASZEMSKI: Thanks, Dr.
2 Blumenstein. Dr. Besser?

3 DR. BESSER: With the conditions for
4 follow-up, I believe the company has presented its
5 case and that this device will be a benefit for those
6 receiving it.

7 CHAIRPERSON YASZEMSKI: Thank you, Dr.
8 Besser. Ms. Maher, I would like to ask for your
9 comments.

10 MS. MAHER: I think that the company did
11 do an excellent job in the clinical study. Actually,
12 it's better than better than average, and I think that
13 as a Panel we have done a good job at looking at all
14 the issues and trying to take the best case of least
15 burdensome approach to getting --

16 CHAIRPERSON YASZEMSKI: Thank you, Ms.
17 Maher. Ms. Luckner?

18 MS. LUCKNER: I think the company has
19 discharged their duty to bring to the FDA Panel a
20 product that meets the FDA definition of safe and
21 effective. I think I am totally impressed with the
22 sponsor's response to all the Panel questions, that

NEAL R. GROSS

COURT REPORTERS AND TRANSCRIBERS
1323 RHODE ISLAND AVE., N.W.
WASHINGTON, D.C. 20005-3701

1 they were totally prepared for all the issues that
2 were presented. Very well done. And finally, I
3 believe the Panel and the FDA discharged their duty to
4 protect the public and balance promoting innovation.

5 CHAIRPERSON YASZEMSKI: Thanks very much,
6 Ms. Luckner. Let me do two final things. I would
7 like to thank all the Panel Members for their
8 preparation and participation today, including and
9 especially our consumer and industry reps. I would
10 like to ask Dr. Witten if she has any comments from
11 the FDA's perspective?

12 DR. WITTEN: No. I would like to thank
13 the Members of the Panel for participating today, to
14 the FDA review team and the sponsor also for their
15 presentations.

16 CHAIRPERSON YASZEMSKI: Thanks, Dr.
17 Witten. I would like to also end with saying the
18 sponsor has heard from the Panel congratulations about
19 the thoroughness of their presentation, and I would
20 like to add my thanks to them for a very thorough
21 presentation today. And with that, we adjourn this
22 meeting.

CERTIFICATE

This is to certify that the foregoing transcript in the
matter of: Orthopedic and Rehabilitation
 Devices Panel

Before: DHHS/PHS/FDA/CDRH

Date: June 2, 2004

Place: Gaithersburg, MD

represents the full and complete proceedings of the
aforementioned matter, as reported and reduced to
typewriting.
